

# TR-FRET PPAR gamma Competitive Binding Assay Kit, goat

## Product Information

### **Cat**

Kit-0970

### **Common Name**

TR-FRET

### **Cat.No.**

Kit-0970

### **Description**

The TR-FRET PPAR gamma Competitive Binding Assay provides a sensitive and robust method for high-throughput screening (HTS) of ligands for peroxisome proliferator-activated receptor-gamma (PPAR gamma). The kit uses a terbium-labeled anti-GST antibody, a fluorescent small-molecule pan-PPAR ligand (Pan-PPAR Green), and human PPAR gamma ligand-binding domain (LBD) that is tagged with glutathione S-transferase (GST) in a homogeneous mix-and-read assay format.

### To assay:

When running the TR-FRET PPAR gamma Competitive Binding Assay, Pan-PPAR Green is added to ligand test compounds followed by addition of a mixture of the PPAR gamma-LBD and terbium anti-GST antibody. When the Pan-PPAR Green is bound to PPAR gamma, energy transfer from the terbium-labeled antibody to the tracer occurs, and a high TR-FRET ratio is observed. Competitive ligand binding to PPAR gamma is detected by a test compound's ability to displace the tracer, which results in a loss of FRET between the antibody and the tracer. After an incubation period at room temperature, the 520 nm/495 nm TR-FRET ratio is calculated and can be used to determine the IC<sub>50</sub> from a dose response curve of the compound. This type of binding assay is analogous to radioligand-based assays, except that it eliminates handling of radioactivity and enables a homogeneous, "addition-only" format.

### **Applications**

Competitive Binding Assay

### **Storage**

## TR-FRET PPAR gamma Competitive Binding Assay Kit, goat

The TR-FRET PPAR gamma Competitive Binding Assay Kit contains PPAR gamma-LBD (GST) protein, Pan-PPAR Green, terbium-labeled anti-GST antibody, and buffers. Store components as indicated in the assay protocol (-80°C, -20°C, or +4°C).

---

**Shipping**

Dry Ice

---

**Size**

400 x 40 µL

---

**Materials Required but Not Supplied**

Microplate Reader

---

**Detection method** Fluorescent

---
