

Tumor-derived Exosome enrichment and Quantification Assay Kit (Biological Fluids/Cell Media, Luminometric) Product Information

Cat

Kit-1023

Common Name

Exosome

Cat.No.

Kit-1023

Description

Tumor-derived Exosome enrichment and Quantification Assay Kit

Applications

Tumor-derived exosome enrichment and quantification from Biological fluids

Storage

4°C

Shipping

Gel Pack

Size

100 assays

Kit Components

Sample buffer (1X); Washing buffer (25X); Primary Antibody; HRP conjugated; Substrate chromogenic solutions; Stop solution; Exosome Standards; Immunoplate

Target Species

biological fluids/cell media

Detection method Luminometric Assay

Features & Benefits

Tel: 1-631-559-9269 1-516-512-3133

Fax:1-631-938-8127
