

## Furaltadone Metabolite Detection Kit

### Product Information

#### Product Overview

Drug / Contaminant Residue Detection Kits

#### Description

Detects AOZ, the primary metabolite of Furaltadone, in animal-derived food.

#### Size

48t/96t

#### Applications

- Residue testing in meat, eggs, and aquaculture products
- Monitoring banned antibiotic usage
- Ensuring compliance with zero-tolerance policies

#### Features & Benefits

- Sensitive detection of AOZ metabolites
- Suitable for field and lab environments
- Easy sample prep and protocol
- High accuracy for regulatory screening
