

## Sulfadimethoxine Detection Kit

### Product Information

---

#### Product Overview

---

Drug / Contaminant Residue Detection Kits

---

#### Description

---

Developed for detecting Sulfadimethoxine residues in food such as meat, poultry, and seafood.

---

#### Size

---

48t/96t

---

#### Applications

---

- Detection of Sulfadimethoxine in animal products
  - Routine monitoring in food production
  - Drug residue compliance testing
- 

#### Features & Benefits

---

- High specificity to Sulfadimethoxine
  - Compatible with meat, liver, and aquatic samples
  - Easy to perform in standard labs
  - Quick turnaround for timely results
-
