

## Chlortetracycline Detection Kit

### Product Information

---

#### Product Overview

---

Drug / Contaminant Residue Detection Kits

---

#### Description

---

Identifies Chlortetracycline residues in animal products.

---

#### Size

---

48t/96t

---

#### Applications

---

- Meat and milk residue screening
  - Veterinary drug surveillance
  - Food export testing
- 

#### Features & Benefits

---

- Sensitive to low concentrations
  - Simple and robust assay
  - Supports routine screening
  - Works with multiple sample types
-
