

## Oxytetracycline Detection Kit

### Product Information

---

#### Product Overview

---

Drug / Contaminant Residue Detection Kits

---

#### Description

---

Identifies Oxytetracycline residues in animal-derived food.

---

#### Size

---

48t/96t

---

#### Applications

---

- Testing in meat, milk, and honey
  - Veterinary drug surveillance
  - Quality control for food exports
- 

#### Features & Benefits

---

- High accuracy and low detection limit
  - Simple and efficient process
  - Suitable for large-scale testing
  - Minimal sample preparation required
-
