

Experience the Best with Creative BioMart's Recombinant EPO

We are proud to introduce our high-quality recombinant proteins, featuring various tags, labels, and conjugations of recombinant human EPO proteins. These proteins are crafted under stringent standards and are ideal for a broad range of research applications.

■ Why Choose Our Recombinant Protein Products?

1. Wide Range of Applications:

Our recombinant EPO proteins can facilitate multiple research disciplines including cell biology, molecular biology, biochemistry, and immunology. Use them for cell culture, protein-protein interaction studies, drug discovery, and much more.

2. High Purity and Stability:

We provide highly pure, stable, and bioactive recombinant proteins. These attributes are crucial for inhibiting potential contaminations and yielding accurate research outcomes.

3. Variety of Tags and Labels:

Our recombinant human EPO proteins come with various tags and labels. Whether its epitope tags for protein detection, purification tags for protein purification, or fluorescent tags for protein localization, we've got you covered.

4. Customizable Conjugations:

To augment specific research requirements, we offer a range of customizable conjugations. From enzymes and biotin to fluorophores, you can customize as per your experimental needs.

5. Outstanding Consistency:

Our recombinant proteins showcase consistent performance in applications and are of the highest reproducibility.

Get in touch to know more or to customize your order. Experience for yourself why scientists worldwide trust Creative BioMart's comprehensive range of recombinant protein products.

■ Featured Product

Cat. No.	Product Name	Price
EPO-01H	Recombinant Human Erythropoietin	\$698.00 / 1mg

USA

45-1 Ramsey Road, Shirley, NY 11967, USA
