

High Quality & Consistency GMP-GRADE PROTEINS

Creative BioMart is devoted to details at all levels of the manufacturing process. Our GMP-grade proteins are generated from the same clone and expression system as the research-grade proteins. This enables us to smoothly switch between GMP-grade and research-grade proteins. We offer more than 100 GMP-grade proteins with high quality and consistency to meet cell culture and therapeutic demands.

rHumanFGF9	rHumanBDNF	rHumanBMP2	rHumanBMP4	rHumanBMP7
rHumanCD40LG	rHumanCSF2	rHumanCTLA4	rHumanEGF	rHumanFGF2
rHumanGDF11	rHumanIFNG	rHumanIL10	rHumanIL12	rHumanIL2
rHumanIL5	rHumanIL6	rHumanINHBA	rHumanNOG	rHumanNRG1
rHumanPDGFB	rHumanTGFB1	rHumanTNF	rHumanVEGFA	rHumanWNT3A

We offer both small-scale and large-scale GMP production, formulation, and fill/finish. Please feel free to ask for custom production of GMP-grade proteins.
