

# High-quality and versatility fluorescent proteins

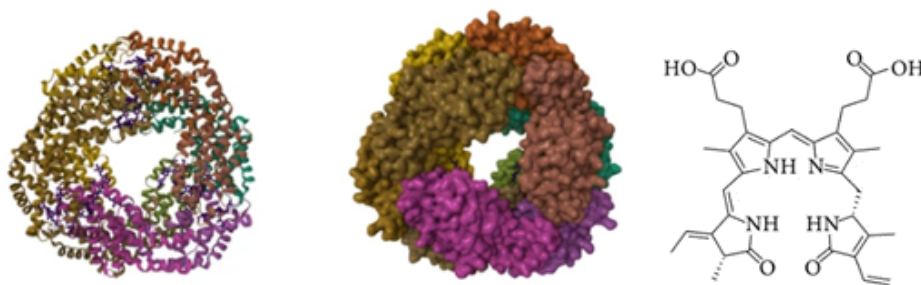

Here at CREATIVE BIOMART, we are thrilled to present our premium R-PE and APC fluorescent proteins known for their high-quality and versatility.

Fluorescent proteins are renowned for their role in pioneering biomedical research, from cell tracing, gene expression studies, to developing targeted therapies. Two of the most valued are our R-PE (R-phycoerythrin) and APC (allophycocyanin) proteins due to their exceptional photostability, enhanced brightness, and broad excitation spectra.

## Featured Products

Cat. No.	Product Name	Fluorescence	Concentration	Price
<b>APC-318</b>	Active Allophycocyanin	655 - 665 nm	4 mg/mL	\$88/mg; \$284/100mg
<b>XL-APC-136</b>	Cross-linked Allophycocyanin protein	Emmax 660 nm± 2nm	≥15 mg/ml	\$88/mg; \$398/100mg
<b>BPE-316</b>	B-Phycoerythrin Protein	Emmax 576 nm	5 mg/mL	\$81/mg; \$450/100mg

Our R-PE protein is a high-intensity red fluorescent protein, widely used in flow cytometry due to its various advantages. It is known for its broad excitation spectrum and thus enhances brightness, providing vivid fluorescence results. In addition, R-PE's photostability allows it to withstand various experimental conditions, making it ideal for applications requiring lengthy observations.

Similarly, our standalone APC protein stands out in the fluorescence microscopy field due to its superb far-red emission, making it optimal for multicolor experiments and lessening the phototoxic impact on live cell imaging.

CREATIVE BIOMART's luminous protein advantage extends beyond outstanding product quality. Our fluorescent proteins promise:

- **Purity:** Free of contaminating proteins or nucleic acids.
- **Stability:** Reliable performance across experimental conditions.
- **Customizability:** We offer specialized conjugation services to help tailor the protein to fit your research needs.
- **Excellent Support:** Our team of experts are readily available for any queries or support needed with our products.

Experience the CREATIVE BIOMART advantage today. Discover the potential our R-PE and APC fluorescent proteins can bring to your research. Brighten your science with CREATIVE BIOMART Fluorescent Proteins!
