

High Quality Human Albumin Protein

Recombinant human albumin is often used in the manufacture of pharmaceuticals, vaccines, and diagnostics. Its recombinant nature ensures it is free from human-derived pathogens, providing a safer alternative to albumin derived from human blood donations.

Creative BioMart is one of the preeminent suppliers of protein products, with a strong emphasis on recombinant proteins. Our spectrum of offerings includes, among many others, a recombinant version of the human albumin protein.

Featured Product

Product Information

Cat. No.	ALB-02H
Product Name	Recombinant Human Albumin Protein , Low Endotoxin , Media Grade

Quality Certificationn

Identification	Positive
Purity	100.0%
Molecular Weight	67.2 kDa

Source	Pichia pastoris
Species	Human
CAS. No.	70024-90-7
Form	The protein was lyophilized from a concentrated (1mg/ml) solution with no additives.
Storage	2-8°C

pH	6.6
Appearance	Off-white powder
HCP residue	≤ 10 ng/g (ELISA)
Endotoxin	< 0.5 EU/mg

Advantages

- High Purity
- Low Endotoxin
- Animal-free
- Bioactive
- Batch-to-batch consistency

Applications

- Pharmaceutical
- Drug delivery
- Cell Culture
- Biomaterial
- Diagnostic

Choosing our company's recombinant human albumin protein means investing in quality and confidence. At Creative BioMart, we pursue an unwavering commitment to exacting standards, rigorous testing, and constant improvement.
