

Unleash the Power of Recombinant Human Glucagon from Creative BioMart

Step into the future of health innovation with Recombinant Human Glucagon!

■ WHAT IS GLUCAGON?

Glucagon is a potent hormone that plays a crucial role in managing the body's energy supply. It aids in breaking down glycogen into glucose, thus increasing your body's blood sugar levels.

■ USES OF GLUCAGON

- Regulating sugar levels for individuals with diabetes.
- As an emergency treatment for severe hypoglycemia.
- Supportive in various diagnostic tests in radiology.

■ ADVANTAGES OF RECOMBINANT HUMAN GLUCAGON

- **Guaranteed Effectiveness:** Recombinant DNA technology ensures the production of identical glucagon, maintaining its effectiveness.
- **Consistency:** It ensures a steady supply of high-quality glucagon, eliminating the inconsistencies associated with extracted glucagon.
- **Safety:** The process of creating Recombinant Human Glucagon removes the risk of contamination by human or animal-based pathogens.

■ WHY CHOOSE OUR RECOMBINANT GLUCAGON?

- **Premier Quality:** We adhere to rigorous manufacturing protocols, providing the high standard and safe Recombinant Human Glucagon.
- **Affordable Pricing:** We offer our top-quality products at competitive prices.
- **Professional Support:** Our team of experts ensures that you receive the best support and service in every step of your way.

- Innovation Loyalty: Dedicated to innovation and research, we're continuously striving to advance our products.

Take a leap into the future with our Recombinant Human Glucagon. Please contact us for more information. Connect with us today and let's pioneer health advancements together!

■ Featured Product

Cat. No.	Product Name
GCG-89H	Recombinant Human Glucagon (7-36)
