

## Your Reliable Vendor of Fluorescent Proteins

We would like to bring to your attention that Creative BioMart has just released five new fluorescent proteins, for use in protein and antibody labeling, diagnostics, and other research and pharmaceutical applications. Our excellent fluorescent proteins are originally manufactured from natural sources grown in continuous microalgae culture, assuring high purity with extreme quantum efficiency and excellent stability.

Catalog	Product Details
<a href="#">RPE-135</a>	R-Phycoerythrin protein
<a href="#">APC-137</a>	Allophycocyanin protein
<a href="#">XL-APC-136</a>	Cross-linked Allophycocyanin protein
<a href="#">BPE-138</a>	B-Phycoerythrin protein
<a href="#">PerCP-139</a>	Peridinin-chlorophyll-protein complex

Above products provide a more stable base for conjugation as well as longer fluorescence retention than other organic dyes, leading to better consistency and reliability across test runs.

Furthermore, Creative BioMart also provides custom protein-labeling service to save your valuable time. Welcome to [CONTACT US](#) or send an email to [info@creative-biomart.com](mailto:info@creative-biomart.com) for project quotations and more detailed information.
