

Your Trustworthy Partner in CDMO Services - Efficient & Compliance-driven

CDMO is a cutting-edge industry solution delivering fully integrated, comprehensive drug development and manufacturing services to the pharmaceutical and biotech sectors. We are your one-stop destination for all pharmaceutical needs – from pre-formulation, formulation, stability studies, method development, raw material testing, and final production.

Here at Profacgen, we specialize in offering tailored solutions to fit the unique needs of each client. We strive to support our clients at every phase of the drug development lifecycle, ensuring speed and quality control, thanks to our highly skilled teams and advanced technical capabilities.

Why Choose Us?

- Extensive Experience
- Quality and Compliance
- Technical Expertise
- Integrated Solutions
- Customized Production

GMP grade stable cell line development

- Clone screening
- Establishment and verification of master cell bank (MCB)
- Characterization and stability test of master cell bank (MCB)
- Gene stability test of master cell bank (MCB)
- Establishment and verification of working cell bank (WCB)
- Characterization and stability test of working cell bank (WCB)
- Gene stability test of working cell bank (WCB)
- Cell bank transfer

IND-enabling Non-cGMP Production and cGMP Manufacturing

Drug Substance (DS) and Drug Product (DP) production

- From upstream cell culture, downstream protein purification to preparation filling, finished product packaging and other GMP production services.
- Multi-scale (50L-2000L) protein and antibody production line
- Sartorius, GE and Thermo Fisher cell culture production lines can meet different process requirements
- Advanced purification process, automatic chromatography system and ultrafiltration system can ensure high recovery
- Preparation production from filling, lyophilization to packaging
- Disposable production equipment and consumables can reduce the pollution risk of production and shorten the production cycle.

IND-enabling Process Development Services

- Upstream process development
- Downstream process development
- Formulation process development
- Analysis method development

Partnering with us means receiving dedication, expertise, and an unwavering commitment to your success. So, whether you're a start-up biotech, a virtual pharma company, or a well-established pharmaceutical manufacturer, we are equipped to provide you with the best-in-class CDMO services you need for success. Connect with us to start your journey to product perfection.
