

Ovalbumin protein peptide

Cat. No. ALB-117C Lot. No. (See product label)

SPECIFICATION

Product Overview	Chicken egg albumin is the major protein constituent of egg whites. Chicken egg albumin is a phosphorylated-glycoprotein. Small molecule active peptides extracted from fresh eggs and duck egg white using advanced directed biological enzyme digestion technology.
-------------------------	---

Species	Chicken
----------------	---------

Source	Chicken egg white
---------------	-------------------

Form	White or light yellow powder
-------------	------------------------------

Molecular Mass	<1000Dal
-----------------------	----------

Purity	≥85.5%
---------------	--------
