

## Recombinant Human APITD1 Protein, His-tagged

Cat. No. APITD1-2307H Lot. No. (See product label)

### SPECIFICATION

<b>Product Overview</b>	Recombinant human APITD1 protein, fused to His-tagged at N-terminus, was expressed in E. coli
<b>Species</b>	Human
<b>Source</b>	E.coli
<b>Description</b>	This locus represents naturally occurring read-through transcription between the neighboring APITD1 (apoptosis-inducing, TAF9-like domain 1) and CORT (cortistatin) genes. Alternative splicing results in multiple transcript variants, two of which encode fusion proteins that share sequence identity with the products of each individual gene. [provided by RefSeq, Aug 2011]
<b>Form</b>	25 mM Tris, pH 8.0, 150 mM NaCl, 10% glycerol, 1% Sarkosyl.
<b>Molecular Mass</b>	18.9 kDa
<b>Purity</b>	> 80% as determined by SDS-PAGE and Coomassie blue staining
<b>Concentration</b>	>50 ug/mL as determined by microplate BCA method

### GENE INFORMATION

<b>Gene Name</b>	CENPS centromere protein S [ Homo sapiens ]
