

# Native Cynomolgus Brain Total Protein Lysates

Cat. No. BL-001C Lot. No. (See product label)

## SPECIFICATION

<b>Product Overview</b>	Monkey Brain, cynomolgus total protein (protein lysate) is isolated from freshly harvested tissues of single healthy normal donor. Tissues are homogenized in protein lysis buffer supplemented with a cocktail of protease inhibitors to minimize proteolysis, precisely quantified.
<b>Species</b>	Cynomolgus
<b>Source</b>	Brain
<b>Applications</b>	Total protein is ready for immediate use in Western blotting, immunoprecipitation, SDS-PAGE, isoelectric focusing gels and SDS-capillary electrophoresis, enzymatic activity analysis, gel shifting assay, protein-protein interaction, and tissue specific expression.
<b>Quality Control Test</b>	Quality of protein as indicated by the absence of smear (no degradation) and sharpness and resolution of the protein bands is verified by denatured SDS-PAGE using Coomassie blue staining. The integrity of protein is tested by immunoblotting using specific beta-actin antibody.
<b>Storage</b>	Stored at -80 centigrade.
<b>Concentration</b>	5 mg/mL
<b>Shipping</b>	Shipped on dry ice. Protein can also be provided in denatured SDS Sample buffer for only Western blotting use.
