

Recombinant Human CD19 Protein, GST-Tagged

Cat. No. CD19-0732H **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Human CD19 full-length ORF (NP_001761.3, 1 a.a. - 556 a.a.) recombinant protein with GST-tag at N-terminal.
Species	Human
Source	Wheat Germ
Description	Lymphocytes proliferate and differentiate in response to various concentrations of different antigens. The ability of the B cell to respond in a specific, yet sensitive manner to the various antigens is achieved with the use of low-affinity antigen receptors. This gene encodes a cell surface molecule which assembles with the antigen receptor of B lymphocytes in order to decrease the threshold for antigen receptor-dependent stimulation.
