

Recombinant Human CD274 protein, Fc-tagged, R-PE labeled

Cat. No. CD274-2142HP Lot. No. (See product label)

SPECIFICATION

| | |
|-------------------------|--|
| Product Overview | Recombinant Human CD274 Protein, was expressed in mammalian cells with Fc tag and NH ₂ -Reactive R-PE (R-Phycoerythrin) conjugate. |
| Species | Human |
| Source | Mammalian Cells |
| Description | NH ₂ -Reactive R-Phycoerythrin is used for antibody conjugation for immunostaining and cellular proteins for tracing. NH ₂ -Reactive R-Phycoerythrin has succinimidyl ester groups, and can easily make a covalent bond with amino groups of protein without any activation process. |
| Form | Liquid in sterile PBS buffer pH 7.4 (may contains tiny amount of reaction buffer and R-Phycoerythrin). |
| Endotoxin | <1EU/ug by LAL method. |
| Stability | Sample is stable for at least 12 months when stored at -20 to -80°C from date of manufacture. For longer storage, add equal volume of glycerol to the sample solution and store at -20 to -80°C. |
| Storage | Store under sterile conditions at -20 to -80°C immediately after receipt. It is recommended that the protein be aliquoted for optimal storage. Avoid freeze-thaw cycles. |
