

Recombinant Human CD83 Protein

Cat. No. CD83-0868H **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Human CD83 full-length ORF (AAH30830.1) recombinant protein without tag.
Species	Human
Source	Wheat Germ
Description	The protein encoded by this gene is a single-pass type I membrane protein and member of the immunoglobulin superfamily of receptors. The encoded protein may be involved in the regulation of antigen presentation. A soluble form of this protein can bind to dendritic cells and inhibit their maturation. Three transcript variants encoding different isoforms have been found for this gene. [provided by RefSeq, Oct 2011]
