

Recombinant Full Length Human CNTN4 Protein, GST-tagged

Cat. No. CNTN4-1991HF Lot. No. (See product label)

SPECIFICATION

Product Overview	Human CNTN4 full-length ORF (AAH26119.1, 1 a.a. - 697 a.a.) recombinant protein with GST-tag at N-terminal.
Species	Human
Source	In Vitro Cell Free System
ProteinLength	697 amino acids
Description	This gene encodes a member of the contactin family of immunoglobulins. Contactins are axon-associated cell adhesion molecules that function in neuronal network formation and plasticity. The encoded protein is a glycosylphosphatidylinositol-anchored neuronal membrane protein that may play a role in the formation of axon connections in the developing nervous system. Deletion or mutation of this gene may play a role in 3p deletion syndrome and autism spectrum disorders. Alternative splicing results in multiple transcript variants. [provided by RefSeq, May 2011]
