

## Recombinant Mouse Cd79a protein, Fc-tagged, APC labeled

Cat. No. Cd79a-904MA Lot. No. (See product label)

### SPECIFICATION

<b>Product Overview</b>	Recombinant Mouse Cd79a protein, Fc-tagged was Conjugated with NH2-Reactive APC(Allophycocyanin).
<b>Species</b>	Mouse
<b>Source</b>	HEK293
<b>Description</b>	NH2-Reactive Allophycocyanin is used for antibody conjugation for immunostaining and cellular proteins for tracing. NH2-Reactive Allophycocyanin has succinimidyl ester groups, and can easily make a covalent bond with amino groups of protein without any activation process.
<b>Form</b>	Liquid in sterile PBS buffer pH 7.4 (may contains tiny amount of reaction buffer and Allophycocyanin).
<b>Endotoxin</b>	<1EU/ug by LAL method.
<b>Stability</b>	Sample is stable for at least 12 months when stored at -20 to -80 centigrade from date of manufacture. For longer storage, add equal volume of glycerol to the sample solution and store at -20 to -80 centigrade.
<b>Storage</b>	Store under sterile conditions at -20 to -80 centigrade immediately after receipt. It is recommended that the protein be aliquoted for optimal storage. Avoid freeze-thaw cycles.

**Related Product** Cd79a-904M

**Conjugation** APC

## GENE INFORMATION

**Gene Name** Cd79a CD79A antigen (immunoglobulin-associated alpha) [ Mus musculus ]

**Official Symbol** Cd79a

**Synonyms** CD79A; Ig alpha; Iga; Ly54; mb-1; Ly-54; Igalpha; Ig-alpha;

**Gene ID** 12518

**mRNA Refseq** NM\_007655

**Protein Refseq** NP\_031681
