

Recombinant Human Collagen Type III

Cat. No. Collagen-2330H Lot. No. (See product label)

SPECIFICATION

Product Overview	Recombinant human collagen is a genetically engineered strain constructed by molecular biology method. The collagen type III was purified by more than a dozen separation process. The product is sterilized under GMP conditions and lyophilized to obtain active product.
Species	Human
Source	P.pastoris
Form	Lyophilized White Powder
Molecular Mass	Theoretical molecular weight 55.0kDa.
Endotoxin	<0.5EU/mg
Purity	>95.0% (HPLC)
Storage	Remain closed and stored at 4 centigrade for lyophilized powder. For solutions, store at -20 centigrade and avoid freeze/thaw cycles.
Reconstitution	Reconstitute in ddH ₂ O or buffer solution to prepare a stock solution. Aliquot and store at -20 centigrade.
