

Hamster Colon Lysate, Total Protein

Cat. No. Colon-666H Lot. No. (See product label)

SPECIFICATION

Product Overview Hamster Colon Total Protein (protein lysate) is isolated from freshly harvested tissues of single healthy normal donor. Tissues are homogenized in protein lysis buffer supplemented with a cocktail of 7 mammalian protease inhibitors to minimize proteolysis.

Species Hamster

Source Hamster Colon

Applications Total protein is ready for immediate use in Western blotting, immunoprecipitation, SDS-PAGE, isoelectric focusing gels and SDS-capillary electrophoresis, enzymatic activity analysis, gel shifting assay, protein-protein interaction, and tissue specific expression.

Stability Stable for one year if stored properly.

Storage Store at -80 centigrade

Concentration 5 mg/mL
