

Mouse Anti-Ifngr2 Monoclonal Antibody

Cat. No. DMABT-H18647 **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Mouse Anti-Ifngr2 Monoclonal Antibody
Species	Rat
Source	Mouse
Antigen Description	Interferon-gamma is a potent multifunctional cytokine which is secreted primarily by activated NK cells and T cells. Originally characterized based on anti-viral activities, IFN-gamma also exerts anti-proliferative, immunoregulatory, and proinflammatory activities. IFN-gamma can upregulate MHC class I and II antigen expression by antigen-presenting cells. The EC-2 antibody reacts with rat and mouse interferon-gamma (IFN-gamma).
Target	Ifngr2
Immunogen	Recombinant rat IFN-gamma
Isotype	IgG1, kappa
species	Rat
Clone	EC-2
Conjugation	Alexa Fluor 647

Applications	N/A
Preparation	The antibody was purified by affinity chromatography, and conjugated with Alexa Fluor 647 under optimal conditions. The solution is free of unconjugated Alexa Fluor 647.
Usage recommendation	Each lot of this antibody is quality control tested by intracellular immunofluorescent staining with flow cytometric analysis. For immunofluorescent staining, the suggested use of this reagent is 5 µl per million cells in 100 µl volume. It is recommended that the reagent be titrated for optimal performance for each application. * Alexa Fluor 647 has a maximum emission of 668 nm when it is excited at 633nm / 635nm. ** Alexa Fluor is a registered trademark of Molecular Probes, Inc. Alexa Fluor dye antibody conjugates are sold under license from Molecular Probes, Inc. for research use only, except for use in combination with microarrays and high content screening, and are covered by pending and issued patents. View full statement regarding label licenses
Storage	The antibody solution should be stored undiluted at 4 °C and protected from prolonged exposure to light. Do not freeze.
Size	25 tests; 100 tests

GENE INFORMATION

Gene Name	Ifngr2 interferon gamma receptor 2 [Rattus norvegicus]
Official Symbol	Ifngr2
Synonyms	IFNGR2; interferon gamma receptor 2;
Gene ID	360697
