

## N-BOC-ethylenediamine

Cat. No. DYE-116 Lot. No. (See product label)

### SPECIFICATION

<b>Description</b>	N-BOC-ethylenediamine is a monoprotected diamine that is widely used as a building block in bioconjugate chemistry. It has been used in both oligonucleotide and peptide synthesis.
<b>CAS number</b>	57260-73-8
<b>Molecular Mass</b>	160.21
<b>Formula</b>	$(\text{CH}_3)_3\text{COCONHCH}_2\text{CH}_2\text{NH}_2$
<b>Solvent</b>	DMF
<b>Storage</b>	Store at -20°C in the dark. Dessicated.
