

## Pig Esophagus Lysate, Total Protein

Cat. No. Esophagus-720P    Lot. No. (See product label)

### SPECIFICATION

**Product Overview**      Pig Esophagus Total Protein (protein lysate) is isolated from freshly harvested tissues of single healthy normal donor. Tissues are homogenized in protein lysis buffer supplemented with a cocktail of 7 mammalian protease inhibitors to minimize proteolysis.

**Species**                      Pig

**Source**                        Pig Esophagus

**Applications**              Total protein is ready for immediate use in Western blotting, immunoprecipitation, SDS-PAGE, isoelectric focusing gels and SDS-capillary electrophoresis, enzymatic activity analysis, gel shifting assay, protein-protein interaction, and tissue specific expression.

**Stability**                     Stable for one year if stored properly.

**Storage**                      Store at -80 centigrade

**Concentration**              5 mg/mL
