

Native Sheep Fibrinogen

Cat. No. FGG-53S Lot. No. (See product label)

SPECIFICATION

Product Overview	Prepared from fresh sheep plasma using several chromatographic steps. Plasminogen depleted by lysine affinity chromatography.
Species	Sheep
Source	Sheep Plasma
Form	Lyophilized powder
Molecular Mass	340,000
Purity	>95% by SDS-PAGE analysis
Usage	For in vitro laboratory use only. Add deionized water to original volume then incubate at 37°C without agitation until completely liquid. Gently mix before use.
Notes	Optimal experimental conditions and working dilutions must be determined by the end user. Sample concentration and volume are for example purposes only and do not necessarily represent the product that will be received. Please contact us for a current lot-specific product datasheet. Keep fibrinogen at 25-37°C, aliquot and flash freeze unused portion.
Storage	-70°C
Concentration	40 mg/ml before lyophilization
