

Recombinant Human GABRQ 293 Cell Lysate

Cat. No. GABRQ-6055HCL **Lot. No.** (See product label)

SPECIFICATION

Species	Human
Source	HEK293
Description	Antigen standard for gamma-aminobutyric acid (GABA) receptor, theta (GABRQ) is a lysate prepared from HEK293T cells transiently transfected with a TrueORF gene-carrying pCMV plasmid and then lysed in RIPA Buffer. Protein concentration was determined using a colorimetric assay. The antigen control carries a C-terminal Myc/DDK tag for detection.
Components	This product includes 3 vials: 1 vial of gene-specific cell lysate, 1 vial of control vector cell lysate, and 1 vial of loading buffer. Each lysate vial contains 0.1 mg lysate in 0.1 ml (1 mg/ml) of RIPA Buffer (50 mM Tris-HCl pH7.5, 250 mM NaCl, 5 mM EDTA, 50 mM NaF, 1% NP40). The loading buffer vial contains 0.5 ml 2X SDS Loading Buffer (125 mM Tris-Cl, pH6.8, 10% glycerol, 4% SDS, 0.002% Bromophenol blue, 5% beta-mercaptoethanol).
Size	0.1 mg
Storage Instruction	Store at -80°C. Minimize freeze-thaw cycles. After addition of 2X SDS Loading Buffer, the lysates can be stored at -20°C. Product is guaranteed 6 months from the date of shipment.
Applications	ELISA, WB, IP. WB: Mix equal volume of lysates with 2X SDS Loading Buffer. Boil the mixture for 10 min before loading (for membrane protein lysates, incubate the

mixture at room temperature for 30 min). Load 5 ug lysate per lane.

GENE INFORMATION

Gene Name	GABRQ?gamma-aminobutyric acid (GABA) A receptor, theta [?Homo sapiens?(human)]
Official Symbol	GABRQ
Synonyms	GABRQ; gamma-aminobutyric acid (GABA) A receptor, theta; THETA; gamma-aminobutyric acid receptor subunit theta; GABA(A) receptor subunit theta
Gene ID	55879
mRNA Refseq	NM_018558
Protein Refseq	NP_061028
MIM	300349
UniProt ID	Q9UN88
Chromosome Location	Xq28
Pathway	GABA A receptor activation, organism-specific biosystem; GABAergic synapse, organism-specific biosystem; Ion channel transport, organism-specific biosystem; Morphine addiction, organism-specific biosystem
Function	GABA-A receptor activity; chloride channel activity; extracellular ligand-gated ion channel activity
