

Recombinant Human GFAP protein, GST-tagged

Cat. No. GFAP-1307H Lot. No. (See product label)

SPECIFICATION

Product Overview	Recombinant Human GFAP Protein(NP_001124491.1)(83-432 aa) is expressed from E. coli with a GST Tag.
Species	Human
Source	E.coli
ProteinLength	83-432 aa
Description	This gene encodes one of the major intermediate filament proteins of mature astrocytes. It is used as a marker to distinguish astrocytes from other glial cells during development. Mutations in this gene cause Alexander disease, a rare disorder of astrocytes in the central nervous system. Alternative splicing results in multiple transcript variants encoding distinct isoforms.
Form	The purified protein was Lyophilized from sterile PBS (58mM Na ₂ HPO ₄ , 17mM NaH ₂ PO ₄ , 68mM NaCl, pH7.4), 5% trehalose and 5% mannitol are added as protectants before lyophilization.
Bio-activity	Not tested

Endotoxin <1.0 EU per µg protein as determined by the LAL method.

Purity 85%, by SDS-PAGE with Coomassie Brilliant Blue staining.

Applications Blocking peptide

Stability Store for up to 12 months at -20°C to -80°C as lyophilized powder.

Storage Short-term storage: Store at 2-8°C for (1-2 weeks). Long-term storage: Aliquot and store at -20°C to -80°C for up to 3 months, buffer containing 50% glycerol is recommended for reconstitution. Avoid repeat freeze-thaw cycles.

Reconstitution Reconstitute at 0.25 g/µl in 200µl sterile water for short-term storage. Reconstitution with 200µl 50% glycerol solution is recommended for longer term storage (see Stability and Storage for more details).
 If a different concentration is needed for your purposes please adjust the reconstitution volume as required (please note: the ion concentration of the final solution will vary according to the volume used).
 Note: Centrifuge vial before opening. When reconstituting, gently pipet and wash down the sides of the vial to ensure full recovery of the protein into solution.

Shipping The product is shipped at ambient temperature. Upon receipt, store it immediately at the recommended temperature (see below).

GENE INFORMATION

Gene Name GFAP
