

Recombinant Human GZMA Protein

Cat. No. GZMA-4516H **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Human GZMA (P12544) partial recombinant protein expressed in Pichia pastoris.
Species	Human
Source	P.pastoris
Description	Cytolytic T lymphocytes (CTL) and natural killer (NK) cells share the remarkable ability to recognize, bind, and lyse specific target cells. They are thought to protect their host by lysing cells bearing on their surface nonself antigens, usually peptides or proteins resulting from infection by intracellular pathogens. The protein described here is a T cell- and natural killer cell-specific serine protease that may function as a common component necessary for lysis of target cells by cytotoxic T lymphocytes and natural killer cells.
