

Recombinant Mouse Ghrl Protein, His-tagged

Cat. No. Ghrl-1577M **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Recombinant Mouse Ghrl Protein (Leu28-Lys117) with N-His tag was expressed in E. coli.
Species	Mouse
Source	E.coli
ProteinLength	Leu28-Lys117
Description	<p>This gene encodes a preproprotein that undergoes proteolytic processing to yield two bioactive peptides, ghrelin and obestatin. The hormone ghrelin plays a role in enhancing appetite and has numerous other biological functions that include stimulating the secretion of growth hormone (somatotropin) from the anterior pituitary gland. Obestatin is thought to be a hormone that functions in decreasing appetite. Mice lacking the encoded protein develop normally and exhibit no gross anatomical abnormalities. This gene encodes distinct isoforms, some or all of which may undergo similar proteolytic processing.</p>
Form	Freeze-dried powder
Molecular Mass	Predicted Molecular Mass: 14 kDa Accurate Molecular Mass: 17 kDa
Purity	> 90%

 Tel: 1-631-559-9269 1-516-512-3133

 45-1 Ramsey Road, Shirley, NY 11967, USA

Applications	Positive Control; Immunogen; SDS-PAGE; WB.
Stability	The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37 centigrade for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition.
Storage	Avoid repeated freeze/thaw cycles. Store at 2-8 centigrade for one month. Aliquot and store at -80 centigrade for 12 months.
Storage Buffer	PBS, pH7.4, containing 0.01% SKL, 1mM DTT, 5% Trehalose and Proclin300.
Reconstitution	Reconstitute in PBS or others.

GENE INFORMATION

Gene Name	Ghrl ghrelin [<i>Mus musculus</i> (house mouse)]
Official Symbol	Ghrl
Synonyms	GHRL; ghrelin; appetite-regulating hormone; proghrelin; preproghrelin; motilin-related peptide; growth hormone secretagogue; growth hormone-releasing peptide; m46; MTLRP; MTLRPAP; 2210006E23Rik;
Gene ID	58991
mRNA Refseq	NM_021488
Protein Refseq	NP_067463
UniProt ID	Q9EQX0
