

Recombinant Human IER5 cell lysate

Cat. No. IER5-835HCL Lot. No. (See product label)

SPECIFICATION

Species

Human

Description

This gene encodes a protein that is similar to other immediate early response proteins. In the mouse, a similar gene may play an important role in mediating the cellular response to mitogenic signals. Studies in rats found the expression of a similar gene to be increased after waking and sleep deprivation.
