

Mammalian Cell Extraction Kit

Cat. No. Kit-2400 Lot. No. (See product label)

SPECIFICATION

| | |
|--------------------------------|--|
| Product Overview | The Mammalian Cell Extraction Kit provides optimized cell extraction buffer, protease inhibitor cocktail, and DTT for convenient extraction of mammalian proteins from cultured cells and tissue samples, under nondenaturing conditions. Cell lysate prepared using the kit can be used in a variety of applications, such as enzyme activity assays (e.g., caspase activity assays), Western blot analysis, and others. The entire procedure takes less than 20 minutes. |
| Applications | Applications- Enzyme activity assays (e.g., caspase activity assays), Western blot analysis, and others. |
| Storage | -20°C |
| Shipping | Gel Pack |
| Size | 500 assays |
| Kit Components | Cell Extraction Buffer; Protease Inhibitor Cocktail; DTT (1 M) |
| Target Species | Mammalian |
| Features & Benefits | Simple procedure; takes less than 20 minutes; Fast and convenient; The Mammalian Cell Extraction Kit provides optimized lysis buffer and protease inhibitor cocktail as well as other reagents for extraction of mammalian proteins from tissues and cells under nondenaturing conditions. |
