

Recombinant Human LIM domain only 1 (rhombotin 1), His-tagged

Cat. No. LMO1-574H Lot. No. (See product label)

SPECIFICATION

Product Overview	LMO1, 1-156aa, Human, His tag, E.coli
Species	Human
Source	E.coli
ProteinLength	1-156 a.a.
Description	LMO1 is a transcriptional regulator that contains two cysteine-rich LIM domains but lacks a DNA-binding domain. LIM domains may play a role in protein interactions; thus the protein may regulate transcription by competitively binding to specific DNA-binding transcription factors. Recombinant human LMO1 protein, fused to His-tag at N-terminus, was expressed in E.coli.
