

Recombinant Human Methionine Sulfoxide Reductase A, His-tagged

Cat. No. MSRA-2407H **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Recombinant humanMSRA protein, fused to His-tag at N-terminus, was expressed in E.coli andpurified by using conventional chromatography techniques.
Species	Human
Source	E.coli
Description	MSRA (methioninesulfoxide reductase A) belongs to the MsrA Met sulfoxide reductase family.This enzyme has an important function as a repair enzyme for proteins thathave been inactivated by oxidation. It catalyzes the reversibleoxidation-reduction of methionine sulfoxide in proteins to methionine. Inenzymology, a MSRA is an enzyme that catalyzes the chemical reaction. The 3substrates of this enzyme are peptide-L-methionine, thioredoxin disulfide,and H2O, whereas its two products are peptide-L-methionine (R)-S-oxide andthioredoxin
