

## Recombinant H1N1 (A/Brisbane/59/2007) NP Protein, His-tagged

Cat. No. NP-1145I    Lot. No. (See product label)

### SPECIFICATION

**Product Overview**      Recombinant H1N1 (A/Brisbane/59/2007) NP Protein (a.a. 1-486) (Genebank Accession No. ADI99533), fused with C-terminal 6xHis tag, was produced in E.coli.

**Species**                      H1N1

**Source**                        E.coli

**ProteinLength**              1-486 a.a.

**Form**                            Each vial contains 100 ug of lyophilized protein (1 mg/ml) in PBS with 8M urea. Reconstitute the protein with 100ul of Millipore water.

**Purity**                         >90%, based on SDS PAGE

**Applications**                WB standard, antibody ELISA, immunogen, etc.

**Notes**                         For research use only, not for use in diagnostic procedures.

**Storage**                        Keep it at 4°C if used within a month. For long term storage, split it into small aliquots and keep at -80°C. Avoid repeated freezing and thawing. The product will be expired one year after receiving if stored properly. Non-hazardous.
