

Recombinant Full Length Human NPPA Protein

Cat. No. NPPA-347HF Lot. No. (See product label)

SPECIFICATION

Product Overview	Recombinant full length Human ANP with N terminal proprietary tag; Predicted MWt 42.57 kDa.
Species	Human
Source	In Vitro Cell Free System
ProteinLength	153 amino acids
Description	The protein encoded by this gene belongs to the natriuretic peptide family. Natriuretic peptides are implicated in the control of extracellular fluid volume and electrolyte homeostasis. This protein is synthesized as a large precursor (containing a signal peptide), which is processed to release a peptide from the N-terminus with similarity to vasoactive peptide, cardiodilatin, and another peptide from the C-terminus with natriuretic-diuretic activity. Mutations in this gene have been associated with atrial fibrillation familial type 6.
