

Recombinant Human Prolactin Reference standard, non-glycosylated

Cat. No. PRL -203H Lot. No. (See product label)

SPECIFICATION

Product Overview	This consists of a batch of ampoules containing the non-glycosylated component of recombinant human prolactin expressed in murine C127 cells. The primary use of this preparation, along with the parent recombinant prolactin material and the glycosylated component, is for investigating and characterizing the specificity of existing prolactin assays.
Species	Human
Source	Murine C127 Cell
Enzyme Unit	Each ampoule contains 10.5 µg recombinant non-glycosylated prolactin (by definition). On the basis of bioassay results, preparation may be assumed to contain 670 mU per ampoule.
Usage	For practical purposes each ampoule contains the same quantity of non-glycosylated prolactin. The entire content of each ampoule should be completely dissolved in an accurately measured amount of buffer solution. No attempt should be made to weigh out portions of the freeze dried powder. The use of water to reconstitute ampoule contents is not recommended. The material has not been sterilized and the ampoules contain no bacteriostat.
Notes	This preparation is not for administration to humans. The material is not of human or bovine origin. As with all materials of biological origin, this preparation should be

regarded as potentially hazardous to health. It should be used and discarded according to your own laboratory's safety procedures. Such safety procedures should include the wearing of protective gloves and avoiding the generation of aerosols. Care should be exercised in opening ampoules or vials, to avoid cuts.

Stability They remain valid with the assigned potency and status until withdrawn or amended.

Storage Unopened ampoules should be stored at -20°C. Please note: because of the inherent stability of lyophilized material, Creative Biomart may ship these materials at ambient temperature.

GENE INFORMATION

Gene Name PRL prolactin [Homo sapiens];

Official Symbol PRL

Synonyms prolactin; decidual prolactin

Gene ID 5617

mRNA Refseq NM_000948

Protein Refseq NP_000939

MIM 176760

UniProt ID P01236

Chromosome Location 6p22.3

 Tel: 1-631-559-9269 1-516-512-3133

 Email: info@creative-biomart.com  Fax: 1-631-938-8127

 45-1 Ramsey Road, Shirley, NY 11967, USA

Pathway

Amyloids, organism-specific biosystem; Cytokine-cytokine receptor interaction, conserved biosystem; Growth hormone receptor signaling, organism-specific biosystem

Function

hormone activity; prolactin receptor binding; protein binding
