

# Recombinant Full Length Staphylococcus Aureus Lipoprotein Signal Peptidase(Lspa) Protein, His-Tagged

**Cat. No.** RFL17950SF    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                                                                                |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Full Length Staphylococcus aureus Lipoprotein signal peptidase(LspA) Protein (P65266) (1-163aa), fused to N-terminal His tag, was expressed in E. coli.            |
| <b>Species</b>          | Staphylococcus aureus                                                                                                                                                          |
| <b>Source</b>           | E.coli                                                                                                                                                                         |
| <b>ProteinLength</b>    | Full Length (1-163)                                                                                                                                                            |
| <b>Form</b>             | Lyophilized powder                                                                                                                                                             |
| <b>AA Sequence</b>      | MHKKYFIGTSILIAVFVVIFDQVTKYIIATTMKIGDSFEVIPHFLNITSHRNNGAAWGIL S<br>GKMTFFFIIITIIILALVYFFIKDAQYNLFMQVAISLLFAGALGNFIDRILTGEVVDFI DTNI<br>FGYDFPIFNIADSSLTIGVILIIIIALLKDTSNKKEKEVK |
| <b>Purity</b>           | Greater than 90% as determined by SDS-PAGE.                                                                                                                                    |
| <b>Notes</b>            | Repeated freezing and thawing is not recommended. Store working aliquots at 4°C for up to one week.                                                                            |
| <b>Storage</b>          | Store at -20°C/-80°C upon receipt, aliquoting is necessary for mutiple use. Avoid repeated freeze-thaw cycles.                                                                 |
| <b>Storage Buffer</b>   | Tris/PBS-based buffer, 6% Trehalose, pH 8.0                                                                                                                                    |

**Reconstitution**

We recommend that this vial be briefly centrifuged prior to opening to bring the contents to the bottom. Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20°C/-80°C. Our default final concentration of glycerol is 50%. Customers could use it as reference.

**GENE INFORMATION**

**Gene Name**

IspA

**Synonyms**

IspA; Isp; SAV1196; Lipoprotein signal peptidase; Prolipoprotein signal peptidase; Signal peptidase II; SPase II

**UniProt ID**

[P65266](#)
