

Recombinant Full Length *Shewanella Baltica* Atp Synthase Subunit A(Atpb) Protein, His-Tagged

Cat. No. RFL9162SF **Lot. No.** (See product label)

SPECIFICATION

| | |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product Overview | Recombinant Full Length <i>Shewanella baltica</i> ATP synthase subunit a(atpB) Protein (A3DAS0) (1-264aa), fused to N-terminal His tag, was expressed in <i>E. coli</i> . |
| Species | <i>Shewanella baltica</i> |
| Source | <i>E. coli</i> |
| ProteinLength | Full Length (1-264) |
| Form | Lyophilized powder |
| AA Sequence | MAATGEALTPQGYIQHHLTNLSVGEGFWTWHIDSLFFSVGLGVFLWIFRSVGKKAT SGV PGKLQCFVEMIVEFVNNSVKESFHGRNALIAPLALTIFVWVFMMNFMDMIPVD WLPAAAS LMGIPYLKAVPTTDVNITFSLAIGVFLLIIFYSIKVKGVSGFVKELTLQPFNH KAMIPVN LLETVTLIAKPISLALRLFGNLYAGELIFILIALMYGTNLLLSTLGVTLQLGW LIFHIL VITLQAFIFMMLTIVYLSMAHEDH |
| Purity | Greater than 90% as determined by SDS-PAGE. |
| Applications | SDS-PAGE |
| Notes | Repeated freezing and thawing is not recommended. Store working aliquots at 4°C for up to one week. |

 Tel: 1-631-559-9269 1-516-512-3133

 45-1 Ramsey Road, Shirley, NY 11967, USA

| | |
|----------------|----------------------------------------------------------------------------------------------------------------|
| Storage | Store at -20°C/-80°C upon receipt, aliquoting is necessary for mutiple use. Avoid repeated freeze-thaw cycles. |
|----------------|----------------------------------------------------------------------------------------------------------------|

| | |
|-----------------------|---------------------------------------------|
| Storage Buffer | Tris/PBS-based buffer, 6% Trehalose, pH 8.0 |
|-----------------------|---------------------------------------------|

| | |
|-----------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reconstitution | We recommend that this vial be briefly centrifuged prior to opening to bring the contents to the bottom. Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20°C/-80°C. Our default final concentration of glycerol is 50%. Customers could use it as reference. |
|-----------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

GENE INFORMATION

| | |
|------------------|------|
| Gene Name | atpB |
|------------------|------|

| | |
|-----------------|-----------------------------------------------------------------------------------------------|
| Synonyms | atpB; Sbal_4372; ATP synthase subunit a; ATP synthase F0 sector subunit a; F-ATPase subunit 6 |
|-----------------|-----------------------------------------------------------------------------------------------|

| | |
|-------------------|------------------------|
| UniProt ID | A3DAS0 |
|-------------------|------------------------|
