

Recombinant Human SOST Protein (Gln24-Tyr213), His-tagged, Biotinylated

Cat. No. SOST-403H Lot. No. (See product label)

SPECIFICATION

Product Overview Recombinant Human SOST Protein (NP_079513.1) (Gln24-Tyr213) was produced by Baculovirus-Insect Cells expression system. This protein was expressed with a polyhistidine tag at the N-terminus. The purified protein was biotinylated in vitro.

Species Human

Source Insect Cells

ProteinLength Gln24-Tyr213

Description Sclerostin, the protein product of the SOST gene, is a potent inhibitor of bone formation. Sclerostin protein is widely expressed at low levels with highest levels in bone, cartilage, kidney, liver, bone marrow and primary osteoblasts differentiated for 21 days, and was originally identified as an important regulator of bone remodeling, homeostasis, and links bone resorption and bone apposition. Recent studies have revealed that Sclerostin protein inhibits the bone growth probably by binding to the extracellular domain of the Wnt coreceptors LRP5 and LRP6 and disrupting Wnt-induced Frizzled-LRP complex formation.

Predicted N Terminal His

Form Lyophilized from sterile Sterile PBS. Normally 5 % - 8 % trehalose, mannitol and 0.01% Tween80 are added as protectants before lyophilization.

 45-1 Ramsey Road, Shirley, NY 11967, USA

Molecular Mass	The recombinant SOST consists of 197 amino acids and predicts a molecular mass of 22.5 kDa.
Endotoxin	< 1.0 EU per µg protein as determined by the LAL method.
Purity	> 95 % as determined by SDS-PAGE.
Stability	Samples are stable for up to twelve months from date of receipt at -70 centigrade.
Storage	Store it under sterile conditions at -20 centigrade to -80 centigrade. It is recommended that the protein be aliquoted for optimal storage. Avoid repeated freeze-thaw cycles.
Reconstitution	It is recommended that sterile water be added to the vial to prepare a stock solution of 0.2 mg/ml. Centrifuge the vial at 4°C before opening to recover the entire contents.
Shipping	In general, recombinant proteins are provided as lyophilized powder which are shipped at ambient temperature. Bulk packages of recombinant proteins are provided as frozen liquid. They are shipped out with blue ice unless customers require otherwise.
Conjugation	Biotin

GENE INFORMATION

Gene Name	SOST sclerostin [Homo sapiens]
Official Symbol	SOST
Synonyms	SOST; sclerostin; sclerosteosis; VBCH;
