

## Recombinant Mouse TFF1 Protein, His-tagged

Cat. No. TFF1-16690M    Lot. No. (See product label)

### SPECIFICATION

**Product Overview**      Recombinant Mouse TFF1 Protein(NP\_033388.1)(Gln22-Phe87), fused to C-terminal His tag, was expressed in HEK293.

**Species**                      Mouse

**Source**                        HEK293

**ProteinLength**              Gln22-Phe87

**Form**                          Lyophilized from a 0.2 µm filtered solution of PBS, pH7.4.

**Endotoxin**                    Less than 0.1 ng/ug (1 EU/ug) as determined by LAL test.

**Purity**                         Greater than 95% as determined by reducing SDS-PAGE.

**Storage**                      Lyophilized protein should be stored at < -20°C, though stable at room temperature for 3 weeks.Reconstituted protein solution can be stored at 4-7°C for 2-7 days.Aliquots of reconstituted samples are stable at < -20°C for 3 months.

**Reconstitution**              Always centrifuge tubes before opening. Do not mix by vortex or pipetting.  
It is not recommended to reconstitute to a concentration less than 100 µg/ml.  
Dissolve the lyophilized protein in distilled water.  
Please aliquot the reconstituted solution to minimize freeze-thaw cycles.
