

## Native Rabbit Vitronectin

**Cat. No.** VTN-386R    **Lot. No.** (See product label)

### SPECIFICATION

<b>Product Overview</b>	Native rabbit multimeric Vitronectin prepared from fresh rabbit plasma using urea as adenaturant.
<b>Species</b>	Rabbit
<b>Source</b>	Rabbit Plasma
<b>Description</b>	The protein encoded by this gene is a member of the pexin family. Vitronectin is an abundant glycoprotein found in serum and the extracellular matrix and promotes cell adhesion and spreading, inhibits the membrane-damaging effect of the terminal cytolytic complement pathway, and binds to several serpin serine protease inhibitors.
<b>Form</b>	Liquid in 0.05 M sodium phosphate + 0.1 M NaCl, pH 7.4.
<b>Molecular Weight</b>	75.0 kDa monomer
<b>Concentration</b>	5.0 mg/ml
<b>Storage</b>	Store in working aliquots at -80°C. Avoid repeated freeze-thaw cycles.
<b>Official Symbol</b>	VTN

<b>Gene Name</b>	VTN vitronectin [ <i>Oryctolagus cuniculus</i> ]
<b>Synonyms</b>	VTN; vitronectin; V75; VN; VNT; S-protein; glycoprotein 66; serum-spreading factor; Vitronectin; Glycoprotein66; Serum-spreading factor
<b>Gene ID</b>	100009128
<b>mRNA Refseq</b>	NM_001082292
<b>Protein Refseq</b>	NP_001075761
<b>UniProt ID</b>	P22485
<b>Chromosome Location</b>	19
<b>The SMB domain(yellow) in complex with PAI-1</b>
