

Recombinant Yellow Fluorescent Protein

Cat. No. YFP-146 Lot. No. (See product label)

SPECIFICATION

Product Overview Recombinant synthetic non-Aequorea Yellow Fluorescent Protein was expressed in E. coli. This protein has Excitation of 520nm and Emission of 545nm.

Source E.coli

ProteinLength 237 aa

Description Synthetic non-Aequorea fluorescent proteins can bring a world of color to your research. The different fluorescent protein coding sequences (genes) that can be easily excised using the flanking BsaI restriction sites and cloned into any other expression vector of choice. These vectors are also available in Creative Biomart. Please contact us for more information.

Form Liquid or lyophilized powder.

Molecular Mass 26.4 kDa

Purity >80%

Storage Store it at +4 centigrade for short term. For long term storage, store it at -20 centigrade to -80 centigrade.

GENE INFORMATION

Official Symbol YFP

 Tel: 1-631-559-9269 1-516-512-3133
