

## Recombinant Yellow Fluorescent Protein

---

YFP-152

Lot. No. (See product label)

### **Specification**

#### **Product Overview**

Recombinant synthetic non-Aequorea Yellow Fluorescent Protein was expressed in Mammalian. This protein has Excitation of 520nm and Emission of 542nm.

#### **Description**

Synthetic non-Aequorea fluorescent proteins can bring a world of color to your research. The different fluorescent protein coding sequences (genes) that can be easily excised using the flanking Bsal restriction sites and cloned into any other expression vector of choice. These vectors are also available in Creative Biomart. Please contact us for more information.

#### **Source**

Mammalian

#### **Form**

Liquid or lyophilized powder.

#### **Molecular Mass**

26.4 kDa

#### **Protein length**

236 aa

#### **Purity**

>80%

#### **Storage**

Store it at +4 centigrade for short term. For long term storage, store it at -20 centigrade to -80 centigrade.

#### **Official Symbol**

YFP

#### **Synonyms**

YFP; Yellow Fluorescent Protein; fluorescent protein; chromogenic protein
