

## Recombinant Human PPTC7 Protein, His-tagged

Cat. No. PPTC7-353H    Lot. No. (See product label)

### SPECIFICATION

|                  |                                                                                    |
|------------------|------------------------------------------------------------------------------------|
| Product Overview | Recombinant Human PPTC7 fused with His tag at N-terminal was expressed in E. coli. |
| Species          | Human                                                                              |
| Source           | E.coli                                                                             |
| Form             | 25mM Tris, pH8.0, 150mM NaCl, 10% glycerol, 1 % Sarkosyl.                          |
| Molecular Mass   | 32.5 kDa                                                                           |
| Purity           | > 80% as determined by SDS-PAGE and Coomassie blue staining                        |
| Concentration    | >50 ug/mL as determined by microplate BCA method                                   |

### GENE INFORMATION

|                 |                                                                         |
|-----------------|-------------------------------------------------------------------------|
| Gene Name       | PPTC7 PTC7 protein phosphatase homolog (S. cerevisiae) [ Homo sapiens ] |
| Official Symbol | PPTC7                                                                   |
| Synonyms        | TAPP2C; TA-PP2C                                                         |
| Gene ID         | 160760                                                                  |
