

## Recombinant Cattle F5 protein, His & GST-tagged

**Cat. No.** F5-764C    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                                                                                                                                                                                     |
|-------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Cattle F5 aa. (Cys1894~Gly2047 (Accession # Q28107)) fused with N-terminal His & GST tag was produced in E. coli cells.                                                                                                                                                                                                 |
| <b>Species</b>          | Cattle                                                                                                                                                                                                                                                                                                                              |
| <b>Source</b>           | E.coli                                                                                                                                                                                                                                                                                                                              |
| <b>ProteinLength</b>    | Cys1894~Gly2047                                                                                                                                                                                                                                                                                                                     |
| <b>Form</b>             | Freeze-dried powder                                                                                                                                                                                                                                                                                                                 |
| <b>Molecular Mass</b>   | Predicted Molecular Mass: 49.5kDa                                                                                                                                                                                                                                                                                                   |
| <b>Endotoxin</b>        | <1.0EU per 1g (determined by the LAL method)                                                                                                                                                                                                                                                                                        |
| <b>Purity</b>           | >95%                                                                                                                                                                                                                                                                                                                                |
| <b>Characteristic</b>   | The isoelectric point is 6.6.                                                                                                                                                                                                                                                                                                       |
| <b>Applications</b>     | SDS-PAGE; WB; ELISA; IP                                                                                                                                                                                                                                                                                                             |
| <b>Stability</b>        | The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition. |

|                |                                                                                                            |
|----------------|------------------------------------------------------------------------------------------------------------|
| <b>Storage</b> | Avoid repeated freeze/thaw cycles. Store at 2-8°C for one month. Aliquot and store at -80°C for 12 months. |
|----------------|------------------------------------------------------------------------------------------------------------|

|                       |                                                                                    |
|-----------------------|------------------------------------------------------------------------------------|
| <b>Storage buffer</b> | Supplied as lyophilized form in PBS, pH7.4, containing 5% sucrose, 0.01% sarcosyl. |
|-----------------------|------------------------------------------------------------------------------------|

|                       |                                           |
|-----------------------|-------------------------------------------|
| <b>Reconstitution</b> | Reconstitute in sterile PBS, pH7.2-pH7.4. |
|-----------------------|-------------------------------------------|

## GENE INFORMATION

|                  |                                                 |
|------------------|-------------------------------------------------|
| <b>Gene Name</b> | F5 coagulation factor V [ Bos taurus (cattle) ] |
|------------------|-------------------------------------------------|

|                        |    |
|------------------------|----|
| <b>Official Symbol</b> | F5 |
|------------------------|----|

|                 |                                                                                                           |
|-----------------|-----------------------------------------------------------------------------------------------------------|
| <b>Synonyms</b> | activated protein C cofactor; coagulation factor V (proaccelerin, labile factor);<br>coagulation factor V |
|-----------------|-----------------------------------------------------------------------------------------------------------|

|                |        |
