

# Recombinant Human TCEA1

**Cat. No.** TCEA1-30068TH    **Lot. No.** (See product label)

## SPECIFICATION

|                                 |                                                                                                                 |
|---------------------------------|-----------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b>         | Recombinant fragment of Human TCEA1 with an N terminal proprietary tag; Predicted MWt 37.18 kDa.                |
| <b>Species</b>                  | Human                                                                                                           |
| <b>Source</b>                   | Wheat Germ                                                                                                      |
| <b>ProteinLength</b>            | 105 amino acids                                                                                                 |
| <b>Description</b>              | Transcription elongation factor A protein 1 is a protein that in humans is encoded by the TCEA1 gene.           |
| <b>Molecular Weight</b>         | 37.180kDa inclusive of tags                                                                                     |
| <b>Form</b>                     | Liquid                                                                                                          |
| <b>Purity</b>                   | Proprietary Purification                                                                                        |
| <b>Storage buffer</b>           | pH: 8.00Constituents:0.3% Glutathione, 0.79% Tris HCl                                                           |
| <b>Storage</b>                  | Shipped on dry ice. Upon delivery aliquot and store at -80oC. Avoid freeze / thaw cycles.                       |

 45-1 Ramsey Road, Shirley, NY 11967, USA

**Sequence Similarities** Belongs to the TFS-II family.Contains 1 TFIIS central domain.Contains 1 TFIIS N-terminal domain.Contains 1 TFIIS-type zinc finger.

## GENE INFORMATION

**Gene Name** TCEA1 transcription elongation factor A (SII), 1 [ Homo sapiens ]

**Official Symbol** TCEA1

**Synonyms** TCEA1; transcription elongation factor A (SII), 1; GTF2S, TCEA; transcription elongation factor A protein 1; SII; TF2S; TFIIS;

**Gene ID** 6917

**mRNA Refseq** NM\_006756

**Protein Refseq** NP\_006747

**MIM** 601425

**Uniprot ID** P23193

**Chromosome Location** 8q11.2

**Pathway** DNA Repair, organism-specific biosystem; Dual incision reaction in TC-NER, organism-specific biosystem; Formation and Maturation of mRNA Transcript, organism-specific biosystem; Formation of HIV-1 elongation complex containing HIV-1 Tat, organism-specific biosystem; Formation of HIV-1 elongation complex in the absence of HIV-1 Tat, organism-specific biosystem;

 45-1 Ramsey Road, Shirley, NY 11967, USA

**Function**

DNA binding; metal ion binding; translation elongation factor activity; zinc ion binding;
