

## Recombinant Rat Thbs1 protein, His-tagged

**Cat. No.** Thbs1-2663R    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                                                                                                                                                                                     |
|-------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Rat Thbs1 aa. (Phe957~Lys1129 (Accession # Q71SA3)) fused with N-terminal His tag was produced in E. coli cells.                                                                                                                                                                                                        |
| <b>Species</b>          | Rat                                                                                                                                                                                                                                                                                                                                 |
| <b>Source</b>           | E.coli                                                                                                                                                                                                                                                                                                                              |
| <b>ProteinLength</b>    | Phe957~Lys1129                                                                                                                                                                                                                                                                                                                      |
| <b>Form</b>             | Freeze-dried powder                                                                                                                                                                                                                                                                                                                 |
| <b>Molecular Mass</b>   | 22kDa as determined by SDS-PAGE reducing conditions                                                                                                                                                                                                                                                                                 |
| <b>Endotoxin</b>        | <1.0EU per 1g (determined by the LAL method)                                                                                                                                                                                                                                                                                        |
| <b>Purity</b>           | >95%                                                                                                                                                                                                                                                                                                                                |
| <b>Characteristic</b>   | The isoelectric point is 9.                                                                                                                                                                                                                                                                                                         |
| <b>Applications</b>     | SDS-PAGE; WB; ELISA; IP                                                                                                                                                                                                                                                                                                             |
| <b>Stability</b>        | The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition. |

|                       |                                                                                                            |
|-----------------------|------------------------------------------------------------------------------------------------------------|
| <b>Storage</b>        | Avoid repeated freeze/thaw cycles. Store at 2-8°C for one month. Aliquot and store at -80°C for 12 months. |
| <b>Storage buffer</b> | Supplied as liquid form in Phosphate buffered saline(PBS), pH 7.4.                                         |
| <b>Reconstitution</b> | Reconstitute in sterile PBS, pH7.2-pH7.4                                                                   |

## GENE INFORMATION

|                        |                                                           |
|------------------------|-----------------------------------------------------------|
| <b>Gene Name</b>       | Thbs1 thrombospondin 1 [ Rattus norvegicus (Norway rat) ] |
| <b>Official Symbol</b> | Thbs1                                                     |
| <b>Synonyms</b>        | Thbs1; thrombospondin 1; Tsp1; TSP-1; thrombospondin-1    |
| <b>Gene ID</b>         | 445442                                                    |
| <b>mRNA Refseq</b>     | NM_001013062.1                                            |
| <b>Protein Refseq</b>  | NP_001013080.1                                            |
| <b>UniProt ID</b>      | Q71SA3                                                    |
