

## Recombinant Mouse Myh2 protein, His & GST-tagged

**Cat. No.** Myh2-7623M    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                                                                                                                                                                                     |
|-------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Mouse Myh2 aa. (Leu1238~Ala1472 (Accession # I6L963)) fused with N-terminal His & GST tag was produced in E. coli cells.                                                                                                                                                                                                |
| <b>Species</b>          | Mouse                                                                                                                                                                                                                                                                                                                               |
| <b>Source</b>           | E.coli                                                                                                                                                                                                                                                                                                                              |
| <b>ProteinLength</b>    | Leu1238~Ala1472                                                                                                                                                                                                                                                                                                                     |
| <b>Form</b>             | Freeze-dried powder                                                                                                                                                                                                                                                                                                                 |
| <b>Molecular Mass</b>   | Predicted Molecular Mass: 59.1kDa                                                                                                                                                                                                                                                                                                   |
| <b>Endotoxin</b>        | <1.0EU per 1g (determined by the LAL method)                                                                                                                                                                                                                                                                                        |
| <b>Purity</b>           | >95%                                                                                                                                                                                                                                                                                                                                |
| <b>Characteristic</b>   | The isoelectric point is 5.8.                                                                                                                                                                                                                                                                                                       |
| <b>Applications</b>     | SDS-PAGE; WB; ELISA; IP.                                                                                                                                                                                                                                                                                                            |
| <b>Stability</b>        | The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition. |

|                       |                                                                                                            |
|-----------------------|------------------------------------------------------------------------------------------------------------|
| <b>Storage</b>        | Avoid repeated freeze/thaw cycles. Store at 2-8°C for one month. Aliquot and store at -80°C for 12 months. |
| <b>Storage buffer</b> | Supplied as lyophilized form in PBS, pH7.4, containing 5% sucrose, 0.01% sarcosyl.                         |
| <b>Reconstitution</b> | Reconstitute in sterile PBS, pH7.2-pH7.4.                                                                  |

## GENE INFORMATION

|                        |                                                                                                                           |
|------------------------|---------------------------------------------------------------------------------------------------------------------------|
| <b>Gene Name</b>       | Myh2 myosin, heavy polypeptide 2, skeletal muscle, adult [ Mus musculus (house mouse) ]                                   |
| <b>Official Symbol</b> | Myh2                                                                                                                      |
| <b>Synonyms</b>        | MHC2A; Myh2a; Myhs-f; Myhsf1; Myhs-f1; MyHC-IIa; myosin heavy chain 2A; skeletal muscle myosin heavy chain II-a; myosin-2 |
| <b>Gene ID</b>         | 17882                                                                                                                     |
| <b>mRNA Refseq</b>     | NM_001039545.2                                                                                                            |
| <b>Protein Refseq</b>  | NP_001034634.2                                                                                                            |
| <b>UniProt ID</b>      | I6L963                                                                                                                    |
